Forward-looking statements are based on assumptions, forecasts, estimates, projections, opinions or plans that are inherently subject to significant risks, as well as uncertainties and contingencies that are subject to change. No representation is made or will be made by the Company that any forward-looking statement will be achieved or will prove to be correct. Solely for the purposes of the product governance requirements contained within: (a) EU Directive 2014/65/EU on markets in financial instruments, as amended ("MiFID II"); (b) Articles 9 and 10 of Commission Delegated Directive (EU) 2017/593 supplementing MiFID II; and (c) local implementing measures (together, the "MiFID II Product Governance Requirements"), and disclaiming all and any liability, whether arising in tort, contract or otherwise, which any "manufacturer" (for the purposes of the MiFID II Product Governance Requirements) may otherwise have with respect thereto, the shares have been subject to a product approval process, which has determined that such shares are: (i) compatible with an end target market of retail investors and investors who meet the criteria of professional clients and eligible counterparties, each as defined in MiFID II; and (ii) eligible for distribution through all distribution channels as are permitted by MiFID II (the "Target Market Assessment"). Notwithstanding the Target Market Assessment, distributors should note that: the price of the shares may decline and investors could lose all or part of their investment; the shares offer no guaranteed income and no capital protection; and an investment in the shares is compatible only with investors who do not need a guaranteed income or capital protection, who (either alone or in conjunction with an appropriate financial or other adviser) are capable of evaluating the merits and risks of such an investment and who have sufficient resources to be able to bear any losses that may result therefrom. The Target Market Assessment is without prejudice to the requirements of any contractual, legal or regulatory selling restrictions in relation to the Offering.

For the avoidance of doubt, the Target Market Assessment does not constitute: (a) an assessment of suitability or appropriateness for the purposes of MiFID II; or (b) a recommendation to any investor or group of investors to invest in, or purchase, or take any other action whatsoever with respect to the shares.

Each distributor is responsible for undertaking its own target market assessment in respect of the shares and determining appropriate distribution channels.

In connection with the placement of the shares in the Company, Joh. Berenberg, Gossler & Co. KG, acting for the account of the underwriters, will act as stabilization manager (the "Stabilization Manager") and may, as Stabilization Manager, make overallotments and take stabilization measures in accordance with Article 5(4) and (5) of the Regulation (EU) No 596/2014 of the European Parliament and of the Council of April 16, 2014 on market abuse, as amended, in conjunction with Articles 5 through 8 of Commission Delegated Regulation (EU) 2016/1052 of March 8, 2016. Stabilization measures aim at supporting the market price of the shares of the Company during the stabilization period, such period starting on the date the Company's shares commence trading on the regulated market (Prime Standard) of the Frankfurt Stock Exchange (Frankfurter Wertpapierbörse), expected to be July 2, 2021, and ending no later than 30 calendar days thereafter

(the "Stabilization Period"). Stabilization transactions may result in a market price that is higher than would otherwise prevail. However, the Stabilization Manager is under no obligation to take any stabilization measures. Therefore, stabilization may not necessarily occur and it may cease at any time. Stabilization measures may be undertaken at the following trading venues: Xetra.

In connection with such stabilization measures, investors were allocated additional shares of the Company in the amount of 15% of the new and existing shares placed in the offering (the "Overallotment Shares"). The selling shareholders granted the Stabilization Manager, acting for the account of the underwriters, an option to acquire a number of shares in the Company equal to the number of Overallotment Shares at the offer price, less agreed commissions (so-called Greenshoe option). To the extent Overallotment Shares were allocated to investors in the offering, the Stabilization Manager, acting for the account of the underwriters, is entitled to exercise this option during the Stabilization Period even if such exercise follows any sale of shares by the Stabilization Manager which the Stabilization Manager had previously acquired as part of any stabilization measures (so-called refreshing the shoe).
